WORLD FACTS

Clouds Like Feathers

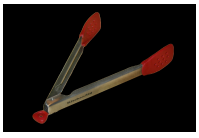

Cirrus clouds above Nandli, India, in January 2021. · ADARSHluck / Wikimedia Commons / CC BY-SA 4.0 · License

Clouds are made of water drops or ice crystals. Some clouds float high in the sky and look like feathers. These are called cirrus clouds.

WORD OF THE DAY

tongs

Tongs grip things between two ends so you can pick them up without touching them with your fingers.

LOOK & LEARN

Under the Peel

Some peel is gone from this orange. A white layer still covers much of the fruit.
